NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE AND NINE MONTHS ENDED DECEMBER 31, 2022 AND 2021
(Unaudited - Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

Stillwater Critical Minerals Corp. (the “Company”) is a publicly listed company on the TSX Venture exchange (“TSX-V”), incorporated under the laws of British Columbia, Canada on April 28, 2006. The Company’s principal business activities include the acquisition and exploration of mineral properties. The Company’s registered office is 904-409 Granville Street, Vancouver, British Columbia, Canada, V6C 1T2. On June 13, 2022, the Company changed its name from Group Ten Metals Inc. to Stillwater Critical Minerals Corp.

These condensed interim consolidated financial statements have been prepared using International Financial Reporting Standards (“IFRS”) applicable to a going concern, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The ability of the Company to continue as a going concern is dependent on its ability to obtain additional equity financing and achieve profitable operations. The Company has sustained losses from operations and has an ongoing requirement for capital investment to acquire and explore its mineral properties.

The Company incurred a net loss of \$3,342,522 for the nine months ended December 31, 2022 (2021 - \$6,065,337), and as of that date, had an accumulated deficit of \$32,491,114 (March 31, 2022 - \$29,157,672). At December 31, 2022, the Company had a total of \$1,664,033 (March 30, 2022 - \$3,304,786) in current assets and a working capital of \$1,505,417 (March 30, 2022 - \$2,887,492) and no long-term debt.

While the Company has been successful in obtaining the necessary financing to cover its corporate operating costs and advance the development of its projects through the issuance of common shares and the exercise of warrants in the past, there is no assurance it will be able to raise funds in this manner in the future. There remain material uncertainties that may cast significant doubt as to the Company’s ability to continue as a going concern. These consolidated financial statements do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern.

2. BASIS OF PREPARATION

Statement of compliance

The Company’s condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. The condensed interim consolidated financial statements should be read in conjunction with the annual consolidated financial statements for the year ended March 31, 2022, which have been prepared in accordance with IFRS. The condensed interim consolidated financial statements were prepared on a historical cost basis using the accrual basis of accounting, except for cash flow information.

The Company uses the same accounting policies and methods of computation as in the annual consolidated financial statements for the year ended March 31, 2022.

These financial statements were approved by the board of directors on March 1, 2023.

- Issuing an additional 1,100,000 shares to the Company; and
 - Completing additional exploration work totaling \$2,500,000.

In addition, the LOI provides the following:

- (i) Upon completion of the Second Option, the Company will retain a 10% free carried interest in the Drayton-Black Lake properties, with Heritage being responsible for all property costs until completion by Heritage of a positive feasibility study supported by a technical report prepared in accordance with NI 43-101 on the Property (the "FS").
- (ii) A discovery payment of \$1.00 per ounce of gold or gold equivalent shall be made on mineral resource estimates as filed from time-to-time on the Drayton-Black Lake properties and shall, in Heritage's discretion, be paid in cash or shares (or a combination thereof), capped at a maximum of \$10,000,000.
- (iii) The LOI provides for the formation of a Joint Venture ("JV") based on the then legal and beneficial ownership levels in the Property following completion of the FS. A JV may also be formed in the event Heritage does not complete the requirements of the Second Option, in which case Heritage is required to maintain minimum exploration and development expenditures of \$500,000 per annum until the completion of the FS in order to maintain status as operator of the JV. The Company maintains certain back-in rights to the property in the event that Heritage does not meet the minimum exploration requirements.
- (iv) The Company is required to complete \$300,000 of exploration work on the properties within the first year of the Agreement (completed), provided any shortfall by the Company shall reduce Heritage's obligation on a dollar-for-dollar basis.

e) Yankee Dundee (British Columbia, Canada)

Yankee Dundee consists of 26 Crown-granted mineral claims located in the Nelson Mining District near Ymir, British Columbia. On June 25, 2013, the Company closed the sale of its interests and obligations in the properties to Armex Mining Corp. ("Armex") in exchange for advance royalty payments, royalty payments, and production payments.

The remaining terms of the agreement are as follows:

- (i) Armex is to pay remaining advance royalty payments of:

- \$50,000 on or before August 28, 2015 (unpaid); and
- \$50,000 on or before August 28, 2016 (unpaid) and annually thereafter until the commencement of commercial production.

(ii) Armex is to pay production and additional payments of:

- \$250,000 upon the commencement of commercial production;
- \$250,000 upon the first anniversary of commencement of commercial production; and
- additional production payments aggregating \$1,000,000 payable from 30% of net revenues as defined in the agreement.

Armex has the right to satisfy the production and additional payments by paying the aggregate sum of \$1,250,000 any time during the first year of commercial production.

Armex will also assume all obligations per existing underlying option agreements with respect to the Yankee Dundee claims which consist of a 1% NSR upon commencement of commercial production until the recovery of the lesser of aggregate expenditures incurred and \$5,000,000, after such time, the NSR will increase to 2.5%. At any time up to the commencement of commercial production, an option is available to purchase 1.5% of the NSR for \$500,000 and the remaining 1% for \$500,000.

The Company will also be entitled to a 2.5% NSR upon commencement of commercial production, with Armex holding the right to repurchase the royalty at any time on the basis of \$1,000,000 for each 1%. In addition, the Company retains back-in rights pursuant to the agreement by which it can re-acquire the property in the event specific production milestones are not met.

Armex disputes the overdue advance royalty payments that were payable on or before August 28, 2015, 2016, 2017, 2018, 2019, 2020 and 2021. As the Company believes that the financial situation of Armex has deteriorated to an extent that precludes it from completing the sale agreement, the capitalized costs relating to Yankee Dundee have been reduced to \$Nil.
